HAPPY KAMP™

THE TOAD

BY TYSON 2.0

STRAIN PROFILE

GENETICS: Girl Scout Cookies (OG Kush x Durban Poison) x Chemdawg (or GMO / Chemdawg OG)

TYPE: Indica-Dominant Hybrid

POTENCY: Over 30% THC

AROMAS: Sharp Petrol, Gassy, Funky & Piney Diesel, Hints of Orange, Cinnamon, Hops

EFFECTS: Heavy-Hitting Cerebral Euphoria, Warm Body Buzz, Deep Relaxation, Sedative "Knock-out" High.

DIESEL LOVER'S NOTE • OUR MONTHLY GAS PICK!

The original Sour was made from Chemdog crossed with Sensi. Exact phenos are unknown because it was a happy mistake. We chose this as our Gas offering this month because, while it's not a CopyCat, it's a close cousin shining on its own merit! Super Gassy, Full Flavor, Jumps Out The Jar. A Heady Stash.

Love & Gratitude

THE HEAVYWEIGHT CHAMP

SPECIAL COLLABORATION WITH TYSON 2.0
